PROFESSIONAL EXPERIENCE

Software Engineer

Dec 2022 - Jan 2024

Capgemini

Mumbai, India

- Contributed to a React.js dashboard for an enterprise client, focused on managing advance and reimbursement payments used by internal finance teams.
- Developed 8+ reusable UI components such as dropdowns, input fields, and summary cards—improving UI consistency across modules.
- Integrated 5+ REST API endpoints using Axios and React hooks to display and update payment-related data.
- Tested and validated API responses using Postman and browser dev tools to ensure correct data mapping and error handling.
- Collaborated with cross-functional teams in Agile sprints using Jira—participating in stand-ups, sprint planning, and reviews.
- Improved frontend performance and responsiveness through component-level optimizations like conditional rendering and lazy loading.

PROJECTS

FlavorFind – Recipe Search App [Link](#) | [Code](#)
